## **ARTICLE 14**

### ASSIGNMENT

### WHAT CHANGES ARE PROPOSED

- Establishes the use of a maximum number of contact hours for the purposes of computing full-time faculty teaching load.
- Grants faculty members a choice between overload compensation or course release in the semester following an overload assignment.
- Creates a model for individual faculty to accumulate and redeem ("bank") units for instructional activity other than their full-time teaching load and other than any overload teaching they were assigned to complete.
- Proposes a process for the implementation of the banking model.

### WHY THE CHANGES ARE IMPORTANT

- Aligns and clarifies contract language with current practice in teaching load. (Note that the minimum number of contact hours to be considered is State regulated pursuant to Section 1012.945, Florida Statutes.).
- The current contract leaves the choice between overload compensation and course release to the department chair and is to be applied only in extraneous circumstances. Release requests are sometimes delayed indefinitely, while no alternative means of compensation is offered. The proposal improves this process.
- Proposed banking model builds upon the existing UNF "course banking Policy," is easy to implement and track using instructional units, and improves the current UNF Course Banking Policy by clarifying the process for redeeming banked credits including grandfathering of accumulated banking units and a timeline for redeeming credits.

2			ASSIGNMENT OF RESPONSIBILITIES
2 3			
4	14.1 P	olicy.	
5			
6		(a)	The University Administration and the UFF agree that the assignment of
7			responsibilities to faculty members is one of the mechanisms by which the
8			University establishes its priorities, carries out its mission, and creates opportunities
9			to increase the quality and integrity of its academic programs. All faculty members
10			have an ongoing responsibility to the University and its students to timely perform
11			those academic duties and obligations arising from the faculty member's
12			employment with the University regardless of when those duties and obligations
13			occur.
14 15		(b)	The professional obligation of faculty members (teaching, advising, curatorship or
16		(0)	librarianship, scholarship/creative activities, service, or other duties assigned for
17			that year) is comprised of both scheduled and nonscheduled activities.
18			that year) is comprised of both scheduled and nonscheduled detivities.
19		(c)	The University Administration and the UFF recognize that it is a part of the
20			professional responsibility of faculty to carry out their duties in an appropriate
21			manner and place. For example, while instructional activities, office hours, and
22			other duties and responsibilities, such as department and/or college meetings in
23			which faculty members are expected to participate are scheduled to be performed
24			at specific times and places, non-scheduled activities are more appropriately
25			performed in a manner and place determined by the faculty member. Although the
26			faculty member has the right to determine when and where to perform these
27			nonscheduled activities so long as that determination is in furtherance of the
28			University's mission, obligations, and responsibilities, the faculty member should
29 30			consult with his/her supervisor where appropriate.
30 31		(d)	Each faculty member should be afforded assignments that provide equitable
32		(u)	opportunities, in relation to other faculty members in the same department/unit, to
33			meet the required criteria for promotion, tenure, merit salary increases, and, if
34			applicable, multi-year appointments.
35			
36		(e)	The University Administration shall make a reasonable and good-faith effort,
37			consistent with the other provisions of this Agreement, to provide faculty with the
38			necessary facilities and resources for carrying out their assigned duties and
39			responsibilities.
40			
41	14.2	Consi	derations in Teaching Assignment.
42			
43		(a)	The Trustees and the UFF recognize that while the Legislature has described the

44		minimum full academic assignment for teaching faculty in terms of twelve (12)
45		classroom contact hours of instruction or equivalent research/scholarship and
46		service-, where "classroom contact hours" are defined pursuant to Section
47		1012.945, Florida Statutes. the professional obligation undertaken by a faculty
48		member will ordinarily be broader than that minimum, and is not easily
49		<del>quantifiable.</del>
50		
51		(1) For nine-month tenured or tenure-track faculty, the contractual teaching
52		assignment shall not exceed eighteen (18) classroom contact hours per
53		academic year.
54		
55		(2) For nine-month non-tenure track faculty, the contractual teaching assignment
56		shall not exceed 24 classroom contact hours per academic year.
57		<b>i</b>
58		(3) For twelve-month lab lecturers in the natural sciences, the contractual teaching
59		assignment shall be twelve (12) lab sections per academic year (normally five
60		(5) labs in the Fall, five (5) labs in the Spring, and two (2) labs in the Summer).
61		<u></u>
62		(4) Teaching assignments in excess of the classroom contact hours stated above
63		shall be classified as an overload assignment as discussed below in 14.11.
64		
65	(b)	In making assignments, subject to the provisions of this Agreement, the University
66	(0)	Administration has the right to determine the types of duties and responsibilities
67		that comprise the professional obligation and to determine the mix or relative
68		proportion of effort a faculty member may be required to expend on the various
69		components of the obligation. Additionally, the parties recognize that if the
70		University Administration exercises this right in a manner that has a direct and
71		substantial impact upon terms and conditions of employment, the University
72		Administration shall provide the UFF with the opportunity to engage in collective
73		bargaining with regard to the impact of such changes before implementing them.

During the 131 consultation, the department chair/supervisor shall discuss any contemplated 132 change in the faculty member's assigned allocations for teaching, 133 research/scholarship/creative activity, and service. 134 135 A teaching faculty member shall, upon written request, promptly be granted a (e) 136 conference with the person responsible for making the assignment to express 137 concerns regarding the considerations listed in subsection 14.2(c). If the conference 138 with the person responsible for making the course assignment does not resolve the faculty member's concerns, the faculty member shall, upon written request, 139 140 promptly be granted an opportunity to discuss those concerns with an administrator 141 at the next higher level. If the faculty member's concerns are not resolved, the 142 administrator shall inform the faculty member of his/her right to address the matter 143 through the expedited Neutral Umpire procedure described in Appendix "G". 144 145 (f) No teaching faculty member's assignment shall be arbitrary or unreasonable. 146 147 (1)For the purpose of applying this principle to teaching assignments, teaching assignments shall be deemed arbitrary or unreasonable if one or more of the 148 149 following applies: 150 151 The assignment was made without providing the faculty member the a. opportunity to consult about the assignment. 152 153 154 b. After consulting with the faculty member, the University Administration did not make a fair and reasonable attempt to 155 156 accommodate the faculty member's circumstances, including 157 allowing reasonable time for research for those faculty members 158 with research assignments. In this regard, the parties recognize the 159 following: 160 1. 161 assignments are driven primarily by the program and 162 curricular needs of the students in the programs in the 163 department. The preferences and desires of the faculty 164 members are secondary to these program and curricular 165 needs. 166 167 2. not all circumstances can be accommodated, and that 168 inability to accommodate does not in and of itself represent 169 an arbitrary or unreasonable assignment. 170 171 An assigned course is outside the faculty member's area of expertise c. and the faculty member has not agreed to teach the course. 172

- 315(c)The University Administration shall make a reasonable and good faith effort not to316change the same faculty member's teaching assignment within four (4) weeks in317two consecutive academic years.

14.6 Equitable Opportunity. Each faculty member shall be given assignments that provide
 equitable opportunities, in relation to other faculty members in the same department/unit, to meet
 the required criteria for promotion, tenure, merit salary increases, and, if applicable, multi-year
 appointments.

- 324 For the purpose of applying this principle to promotion, assignments shall be (a) 325 considered over the entire period since the original appointment or since the last 326 promotion if the faculty member has been promoted, not solely over the period of 327 a single annual assignment. If it is determined that a faculty member has not 328 received assignments that provide equitable opportunities to meet the required 329 criteria for promotion, then the faculty member must receive a timely appropriate 330 adjustment in his/her assignment that corrects the inequity. The faculty member's 331 annual assignments shall be included in the promotion file.
- (b) For the purpose of applying this principle to tenure, assignments shall be considered
  over the entire period of tenure-earning service and not solely over the period of a
  single annual assignment.
  - (1) If it is determined that a faculty member has not received assignments that provide equitable opportunities to meet the required criteria for tenure, then the faculty member must receive a timely appropriate adjustment in his/her assignment that corrects the inequity. The faculty member's annual assignments during his/her period of tenure-earning service shall be included in the tenure file.
  - (2) If an arbitrator determines that a faculty member was not provided an

345 346 347 348 349 350 351			equitable opportunity as described in this section, the arbitrator may award an additional period of employment (not to exceed three years) for the purpose of rectifying the inequity requiring the University to provide the equitable opportunity as described herein. The arbitrator may retain jurisdiction for purposes of determining whether the ensuing assignment provides such equitable opportunity.

435	(b)	Banking Units for Other Instructional Activity.
436		(1) Other instructional activity not accounted for as an overload teaching
437		assignment shall be accounted for, banked, and redeemed for subsequent course
438		<u>release(s).</u>
439		(2) Other instructional activity is defined as individually-designed courses and
440		other instructional activities that fall outside contractually assigned duties. This
441		includes but is not limited to Directed Independent Study, Doctoral Dissertation,
442		Doctoral Projects, Master's Thesis, Graduate Projects, Honors Thesis, Capstones,
443		Senior Projects, Teaching Practicums, and Supervised Research.
444		(3) Accumulated banking credit can be redeemed according to the following
445		model:
446		a. Other instructional activity shall be accounted for and banked in units of
447		"student credit hours" as recorded for the purposes of course scheduling.
448		More specifically, each student credit hour should be interpreted as the
449		equivalent of one hour of educational credit a single student would
450		register for in any given semester. For example, if a faculty member
451		teaches a course section of Directed Independent Study with 2 students
452		enrolled in it, each registered for a 1-credit hours course load, the faculty
453		member would earn 2 student credit hour units for the instructional
454		effort of teaching that course.
455		
456		b. Serving on a Doctoral Dissertation, Doctoral Project, Master's Thesis, or
457		Graduate Project as a committee member other than the Dissertation or
458		Thesis Director or major advisor shall be banked as three student credit
459		hours.
460		
461		c. If a student fails to successfully complete a course and does not earn a
462		passing grade, credit shall still be earned by the faculty member for the
463		purposes of banking.
464		
465		(4) Accumulated banking credit can be redeemed according to the following
466		process:
467		a. A faculty member shall be eligible for a course release of a 3-classroom
468		contact hours course assignment upon accumulation of a total of 20
469		units (student credit hours).

470 471	b. A faculty member may request a redemption of banking units at their discretion.
472	c. Redemption requests for course release shall be submitted by the
473	eligible faculty member to the respective department's chairperson in
474	writing during the spring semester preceding the academic year when

506 Membership, and Senior Seminar/Paper/Project. The University is responsible for establishing
 507 how banking units accrue and the number of units needed for a course release. The course release

508 procedures will be written by Academic Affairs, in consultation with the deans, and the faculty 509 will be given the opportunity to provide input at the beginning of the process and on a draft of the 510 document. Upon attaining sufficient banked units for a course release, the course release should 511 be provided within two academic years. The semester in which the release is provided is at the 512 discretion of the faculty member's Chair. 513 514 NOTE: Proposed strikethroughs below are contingent upon tentative agreement to changes 515 516 in Article 25 (Intellectual Property) 517 518 14.14 Development/Use of Instructional Technology 519 520 "Instructional technology material" includes video and audio recordings, motion <del>(a)</del> pictures, film strips, photographic and other similar visual materials, live video and 521 522 audio transmissions, computer programs, computer assisted instructional course 523 work, programmed instructional materials, three dimensional materials and 524 exhibits, and combinations of the above materials, which are prepared or produced 525 in whole or in part by a faculty member, and which are used to assist or enhance 526 instruction. 527 528 (b) The University Administration and the UFF recognize the increasing development 529 and use of technology, such as interactive television, and computer software, to 530 support teaching and learning and to enhance the fundamental relationship between 531 faculty member and student. This technology may be used in the context of distance 532 learning. Furthermore, the University Administration and the UFF also recognize that this technology should be used to the maximum mutual benefit of the 533 534 University and the faculty member. 535 536 The University Administration shall review the considerations stated in (1) through <del>(c)</del> 537 (4), below, which may be raised by faculty development and use of instructional 538 technology/distance learning. It is recognized that these considerations may already 539 apply to other faculty instructional activities and, therefore, be addressed by 540 existing University policies and procedures in effect on January 6, 2003. If the 541 University Administration concludes that new or revised policies, other than those 542 in effect on January 6, 2003, are needed, it shall develop those policies and provide 543 a copy to the UFF. If new or revised policies have a direct and substantial impact 544 on terms and conditions of employment of faculty members, the University 545 Administration shall negotiate the impact of the new or revised policies prior to 546 implementing them. 547 548 Recognition that a faculty member's effort spent in the assigned (1)549 development of instructional technology/distance learning materials and in 550 providing instruction assigned in this manner may be appreciably greater
